

## CENTRAL FUND DRIVE LAUNCHED IN Y-12

**MAPPING PLANS FOR THE 1957 UCNC CENTRAL FUND PLAN** in Y-12 is the Y-12 Plant Campaign Committee, above. From left around the table are Rhea E. Hester, Atomic Trades and Labor Council, A.F.L.; Frank Fuis, Technical; Helen Stone, Technical; Arnold Tiller, Industrial Relations; J. E. Hensley, Technical; J. G. Dinsmore, Chemical; J. E. Parham, Technical; Edward C. Ellis, Finance and Materials Division Superintendent and committee chairman; J. W. Ebert, Superintendent Maintenance Division; J. A. Young, Finance and Materials; John R. Gordon, Mechanical Operations; W. L. McKinstry, Finance and Materials; R. R. Tippy, Finance and Materials and committee auditor; Paul H. Williams, International Guards Union of America. John S. Reece, Alloy Division; and H. N. Benninghoff, represent both the Superintendents Division and the Shift Superintendents and General Utilities; were absent when the picture was made.

## 100 Per Cent Y-12 Participation Aim In Campaign For Aid Agencies

### Big Increase In Payroll Deduction Donors Sought For Anderson, Knox, Roane Counties

With the objective of raising the Y-12 Plant participation in the Union Carbide Nuclear Company Central Fund Plan for contributions to worthy health, welfare and service agencies in three counties to 100 per cent, the 1957 fund raising drive got a running start last Thursday. It is hoped to get as many Y-12ers as possible who are not now contributing through the Central Fund Plan to do so through the payroll deduction plan.

Under direction and instructions from Y-12 Plant Campaign Chairman Edward C. Ellis, the plant campaign committee met last Thursday morning to launch the drive. In addition to the chairman, committee members are John S. Reece, Alloy Division; J. G. Dinsmore, Product Processing, Chemical; W. L. McKinstry, Material Control; and J. A. Young, Finance and Materials Administration, Finance and Materials Division; Arnold Tiller, Insurance, Industrial Relations; Division Superintendent J. W. Ebert, Maintenance; John R. Gordon, Sunflower Shop, Mechanical Operations; H. N. Benninghoff, Shift Superintendents and General Utilities and the Superintendents Division; Frank Fuis, Mechanical Engineering; Helen Stone, Special Projects; J. E. Hensley, Mechanical Inspection; and J. E. Parham, Laboratory Operations, Technical; Rhea E. Hester, Atomic Trades and Labor Council, American Federation of Labor; Paul H. Williams, International Guards of America; and R. R. Tippy, Finance and Materials Administration, committee auditor.

### Union Leaders Endorse Drive

Hester and Williams, the two union leaders on the committee, both have endorsed the Central Fund Plan campaign and recommend its support by their organization members in Y-12.

The agencies now benefiting from the generosity of Union Carbide Nuclear Company employees through the UCNC Central Fund Plan are the combined Community Chest-Red Cross in Anderson County, the United Fund-Red Cross in Knox County and the Roane County Community Chest. The Anderson County group has set a goal of \$112,000 in its drive that was scheduled to open October 22. The Knox County objective is \$706,784 in a campaign still under way. Roane County is seeking \$32,000.

### Good Causes To Be Aided

Chairman Ellis told his committee that these agencies are seeking funds for exceptionally good

causes. He particularly cited the work being done in cerebral palsy, the aid given crippled and retarded children, mental health, Y.M.C.A. and Y.W.C.A., Boy and Girl Scouts, Campfire Girls, Red Cross and other organizations depending at least partly on public support for the assistance of needy persons and families.

In the campaign now under way throughout Y-12, only those employees who are not now contributing through the Central Fund Plan are to be approached and given the opportunity to make contributions through payroll deductions. Of course, spot cash or check payments will be accepted, Chairman Ellis pointed out to the committee last week.

### May Designate Agency

Every contributor to the Central Fund Plan has the privilege of designating either one of the three agencies to receive the donation. Through space on the payroll deduction cards to be distributed throughout the plant, Y-12ers may mark their choice of beneficiary agency and also the amount of contribution to be deducted each month.

The deductions are to be made on the basis of 50-cent unit—that is 50 cents, \$1, \$1.50, \$2 or similar even amounts. The deductions will be made from pay checks for the first payroll period of each month, beginning in December for Y-12ers who sign the deduction cards during the present campaign.

### May Change Deductions

After signing the original deduction card, Y-12 contributors to the Central Fund Plan have the privilege of changing the amount of their deductions, up or down, changing the beneficiary if they so choose, or even to cancel their deductions. Such changes can be made on cards obtainable from the Timekeeping Department, basement of Bldg. 9711-5, the Y-12 Cafeteria.

During the past year, Chairman Ellis told his committee last week, the Y-12 record of employees contributing to the agencies benefiting through the Central Fund Plan was extremely good. From November, 1956, through September, 1957, an average of 43.6 per cent of Y-12ers contributed to the fund through payroll deductions.

### Y-12 Deductions Raised \$16,326

From these deductions—and not including the cash contributions—the estimated Y-12 contributions from this period was \$10,194 to Anderson County, \$2,274 for Roane County and \$3,858 to Knox County, with the total Central Fund Plan receipts from Y-12 payroll deductions being about \$16,326. These figures compare most favorably with former campaigns in the Y-12 Plant Area.

From the Y-12 and K-25 Plants and the Oak Ridge National Laboratory during the same period, Anderson County agencies got \$29,815.30, Roane County received

### SAFETY SCOREBOARD

The Y-12 Plant Has Operated  
18 Days Or  
526,084 Man-Hours  
(Unofficial Estimate)  
Without A Disabling Injury  
Through October 20  
Phone 7755  
For Daily Report  
On Accident-Free Hours

## 21st UCC Safety Period In Y-12 Sets New Mark For Time Without Disabling Injury

### Check Of Records Shows 3,132,039 Hours Worked Without Lost Time Accident Over 105-Day Period

The 21st Union Carbide Safety Period completed September 25 set a new Y-12 Plant record for hours worked without a disabling injury. The 105-day period, from June 13 to September 25, totaled 3,132,039 man-hours worked, upon being declared official after the prescribed 20-day waiting period. Old Mark Set In 1953

This is the second time in the history of the Y-12 Plant that the 3,000,000 man-hour mark has been reached. The previous all-time record, reached November 19, 1953, was 3,126,787. The new record exceeds the old mark by almost 16,000 hours. Previously it had been announced that the unofficial estimate for the 21st Safety Period was 3,100,922 accident-free hours. This figure was adjusted after an official count of man-hours worked in September.

The award periods to date for the Y-12 Plant include 1,500,000 to 2,000,000 eight times; 2,000,000 to 3,000,000 11 times and over 3,000,000 two times.

### Paducah Has Longest Period

The current standings of the four plants of Union Carbide Nuclear Company as to best man-hours worked records without a disabling injury are Paducah, Ky., with 3,570,307, Oak Ridge National Laboratory with 3,517,191, Oak Ridge Gaseous Diffusion Plant with 3,423,557 and Y-12 with 3,132,039.

Let's hope that everyone stays safety conscious and that Y-12

will be the first plant in the Union Carbide Nuclear Company organization to reach the coveted 5,000,000 man-hours worked without a lost time injury mark.

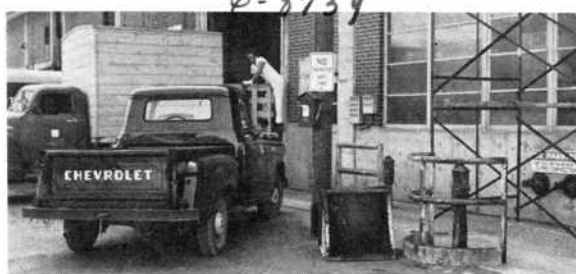

## Testing Group Will Meet Tuesday Night In Blue Room

The Oak Ridge Chapter of the Society for Nondestructive Testing will meet Tuesday night, October 29, at 8 p.m. in the Blue Room of the Ridge Recreation Hall. Robert B. Oliver, of the Metallurgy Division, Oak Ridge National Laboratory, will be the guest speaker for the meeting. Oliver will lecture on the "Electronic Presentation of X-Ray Images."

A door prize of \$5 will be awarded some lucky person attending the lecture. Light refreshments will be served following the technical part of the program.

### BANK ACCOUNTS GROWING

Banking statistics reveal that during the last six years more than 20,000,000 new accounts have been opened in the banks of the country.

**IMPROPER PARKING AROUND THE Y-12 PLANT AREA** not only creates congested traffic but also potential traffic and fire hazards, according to the Safety Department, as shown in these pictures. For instance, in the picture at left the pickup truck is parked far too close to the fire alarm box and the four fire hose connections. The situation could greatly hinder the Fire Department if it was found necessary to utilize the connections. At right another pickup truck is parked on the wrong side of the street and also is blocking the mail car parking space. Other parking violations can be seen in the background of the picture, causing a definite congestion of traffic. More pictures on Page Four.

## Miller New President Of UCC Realty Group

### R. K. Turner Appointed Head of Bakelite Firm

R. K. Turner has been appointed president of Bakelite Company, Division of Union Carbide Corporation, it has been announced by Morse G. Dial, president of the Corporation. He succeeds George C. Miller, who has been appointed president of Union Carbide Realty Company.

### Stanley Corfman To Retire

Miller will have charge of the Corporation's rapidly expanding realty operations including the new Union Carbide Building at 270 Park Ave. Stanley A. Corfman, former president of Union Carbide Realty Company, will reach normal retirement age next summer.

Turner began his association with Union Carbide in 1924 in the research department of Union Carbide Chemicals Company at Clendenin, W. Va. He progressed through the Chemicals Company to become general superintendent of the South Charleston plant in 1940, and in 1946 he moved to New York to fill the post of assistant works manager for the Company. He was appointed vice-president of Bakelite Company in 1952.

### With UCC Since 1922

Miller began his association with Union Carbide in 1922 with Linde Company.

## Disability Benefits Are Paid Under SS

### Eligibles Over 50 Should Apply At Once

With the payment of monthly benefits for the first time in August of this year to more than 100,000 disabled persons between the ages of 50 and 65, the Federal social security program reached a new and important landmark in its mission to promote the financial security of the American family, according to Warren Maddox, district manager of the Knoxville office of the Social Security Administration.

#### Three Major Features

"The Social Security Disability Program has three major features," Mr. Maddox added, "it 'freezes' or protects a worker's social security earnings record, when he is unable to work because of a severe and long-lasting disability. It makes payments to the disabled worker at age 50 or over, and it makes payments to the disabled sons and daughters of retired workers and insured workers who have died."

By recent Congressional action, the long-disabled worker now has almost another year, until June 30, 1958, to file an application and still have his social security earnings record protected as of the date he actually became disabled.

#### Should File Before January 1

However, if the disabled worker is over 50 now and has been disabled six-months, it is important that he file his application as soon as possible, and before January 1, 1958, so that he will not lose any monthly benefit payments. When an application is filed before January 1, 1958, payments can begin with the month of July, 1957. Disabled workers who apply in January, 1958, or later, will not be paid benefits for months before the date of their applications.

## 10 Years Service

Congratulations to the following Y-12 employees who will complete 10 years of Company Service within the next few days:

Homer D. Baker, Steam Plant, October 24.

William M. Simpson, Steam Plant, October 24.

Glynn A. White, Product Processing, October 26.

John G. Dinsmore, Product Processing, October 27.

James R. Martin, Chemical, October 27.

## Physics Seminar To Hear Talk By Maryland Scientist

Dr. J. B. Marion, of the University of Maryland, will speak at the weekly meeting of the Oak Ridge Physics Seminar on Friday afternoon of this week, October 25. The meeting will be at 4 o'clock in Room 18, Oak Ridge Institute of Nuclear Studies Training Building, Administration Road. Dr. Marion's subject will be "Proton and Neutron Reactions of Beryllium." All Y-12ers interested in the topic are invited to attend the meeting.

**MOSTLY YOUNGSTERS OF Y-12** parents are among this group of Union Carbide Nuclear Company youngsters who are members of Cub Scout Pack No. 3225 at Highland View School in Oak Ridge. In the rear is J. T. Maxwell, Y-12 Guard Department, Cubmaster. In the front row, from left, are Kenny Radford, whose father is Assistant Cubmaster and with D Mechanical Operations but not in picture; Tommy Maxwell, Larry

Hill, Bernie Sisk, Billy Carden, Eddie Tilley, Ray Whitley, Bobby Dorr, D. R. Dunn, Jr., Donnie Marlar, Kenneth Freshour and Raymond Smith. In the back row are Bradley Fincher Charles Helms, Ben Webster, David Beatty, Eddie DeBord, Bobby Lynch, Tony Gable, Grog Kasey, Eugene Beachley, Ray Gregory and Richard Gallman. Many other Y-12 parents are taking active interest in Boy, Cub and Girl Scout work.

## 'For Sale' Note Cites Lapses For Y-12 Folks

J. E. "Jud" Temple, Assistant A Shift Supervisor and formerly with the Safety Department, has come up with a snazzy but "read between the lines" piece on safety that is worth passing on. It is a parody on a "for sale" advertisement—and here it is:

#### FOR SALE

One Brain—Nearly new, only slightly worn. I can't seem to find any use for same in considering safety of my life—of lives of those about me.

One Book Of Safety Rules — slightly shelf-worn. It has been laid away for several years and there is little chance of it being used.

One Bundle Of Golden Opportunities—One, that of checking my work area at the beginning of every shift to locate hazards; another, that of helping any man new on the job to become fully acquainted with hazards and safe practices; thirdly, that of seeing to it that all my mental ability is concentrated on safety on my job at all times. These opportunities seldom used—will sell cheap.

One Badly Used Safety Influence—Buyer may be able to repair it if carefully handled.

The aforementioned articles are in the corner of my workshop, located at the corner of Indifference Ave., and Neglect St.

Signed,

A Lot of Y-12 Folks

P.S.—Will consider trade of the above items for a hospital bed, burial policy or cemetery lot.

Get-well wishes are sent to the following Y-12ers who were patients in Oak Ridge Hospital last week:

Jean McWilliams, Janitors Department; W. C. Southard and A. D. Johnson, Process Maintenance; B. B. Coulter, Research Services; G. T. Halmontaler, Mechanical; R. Harris, Buildings and Grounds; Victor Defenderfer, Shift Superintendents Department; E. A. Donahue, Alpha Five Cascade Operations; W. Cofer and J. M. Butts, General Machine Shop; Mary Scalf, Plant Records; J. S. Irving, Maintenance Planning.

Well, O' Sputnik still is up in the air (at this writing) but condescends to descend long enough to do the usual weekly chore of the Colyum. First, it's—

#### SHIFT SUPERINTENDENTS AND GENERAL UTILITIES

The Shift Superintendents Office sends get-well wishes to Victor Defenderfer, B Shift Assistant Superintendent, ill at Oak Ridge Hospital.

The filter crew of General Utilities welcomes B. G. Dyer to the fold—and sends get-well wishes to his wife, who is ill.

The Steam Plant sends condolences to J. F. May, whose grandmother died recently.

#### INDUSTRIAL RELATIONS

Capt. D. C. Shults, of the Guard Department, and his wife, Lucia, Material Control, are back from a tour of the South while vacationing for two weeks. First stop was Daytona Beach, Fla., then on to Lake Wales to visit her brother, across to Panama City, Mobile, Ala., points in Louisiana and lastly a cut back to Easley, S. C., for another visit with kin folks . . . The flu bug has flew in on the Boys in Gray in large numbers recently—but no serious casualties as yet.

#### CHEMICAL

John Dinsmore, Product Processing, is enjoying lots of rest, fishing and other recreational activities at Fontana . . . Zola White is welcomed back after a siege of illness . . . The welcome mat was rolled out last week for C. C. Williams, former departmental employee who has returned to the crew . . . Pat Hair is back after vacationing in Lenoir City.

#### FINANCE AND MATERIALS

Katie Williams, SS Material Control, spent a recent week end with her parents at Maynardville . . . Condolences are extended M. D. Wyrick, whose son died a few days ago . . . Russ Ralston is vacationing at home in Oak Ridge . . . Bill Holbert was given a warm welcome last week after his transfer from the Alloy Division.

Betsy Diggs, Tabulating Services, and family are vacationing in Orlando, Fla. . . The welcome mat was rolled out last week for Rodney Von Gruenigen, a transfer from the Production Inspection Department . . . It's a new Fooord for John Childress—and is he proud?

Plant Records sends get-well wishes to ailing Mary Scalf—she's a patient at Oak Ridge Hospital . . . Betty Rose and her hubby are vacationing in Washington and plan to see the Maryland-Tennessee football game at College Park come this Saturday.

#### TECHNICAL

Bill Dietrich, of the Analytical Development Group of Development Operations, another one of the New Home Owners of Oak Ridge Society, is vacationing this week and plans to stay at home and think about a trip to Florida next year . . . Congratulations to Jim Keys, whose new seven-pound, 12-ounce daughter, Pamela June, was born October 14.

Be it ever so humble there's no place like homes (in Oak Ridge) for vacations for George Lockhart and Chet Borge, Special Projects.

Repetition seems necessary—The ailing Mary Scalf, mentioned in notes from Plant Records, is the wife of Leon Scalf, Mechanical Engineering, and folks down that-away also hope Mary recovers soon . . . Tom Norris was on the puny list last week and the ME's hope he will be back soon . . . Wilbur Allin has established what is believed to be a big "first" in Y-12—he's completed his Christmas shopping down to wrapping and mailing—how smart can a guy get?

#### MAINTENANCE

Research Services reports that the group gave C. O. Campbell a big welcome back last week after being ill . . . F. Irwin is planning a trip to South Dakota for some pheasant hunting—good luck . . . The department is sorry to have to send condolences to P. D. Pace and M. W. Moore, both of whom lost their fathers by death last week . . . Also to B. P. Hagood, whose father-in-law also died recently . . . Rapid recovery wishes to several folks on the sick list—R. H. Clark, C. B. Bridges, D. B. Blackburn, L. M. Thompson and C. G. Hubbard.

Get-well wishes seem to be the entire theme of Mechanical Maintenance reports this week . . . First to G. T. Halmontaler, hurt in a traffic accident between Oak Ridge and Harriman . . . Also to M. J. Talley, E. Sharp, E. W. Koenig, R. A. Cate, T. G. Tapp, A. A. Armour, D. A. Pruiett, R. N. Miller, R. H. Buchanan, C. E. Harness, C. M. Burgess, A. C. Harrington, J. W. Jacobs, C. W. May, W. C. Ward, E. J. Hickie and J. A. Hale, suffering from various and sundry ailments . . . On the other hand the department is glad to welcome H. R. Loy and F. J. Kilpatrick back after extended illnesses.

The Laundry Department extends get-well wishes to G. A. Anderson, ill in Baptist Hospital, Knoxville.

Buildings and Grounds sends condolences to Bill Hudson, whose father died in Yazoo City, Miss., October 16 . . . Skeeaddling away on vacations with unannounced destinations were C. T. Stage, C.

## Y-12ers Direct Highland View Cub Scout Pack

One of the many civic activities engaged in by Y-12ers and other Union Carbide Nuclear Company employees in Oak Ridge is the Boy Scout and Cub Scout movement. Many Carbide men and women have taken leading parts in the Scout work, ranging from top positions in the Great Smoky Council to posts of troop scoutmasters and just plain parents and supporters of scouting. That also goes for the Girls Scouts of the city.

#### 20 Y-12 Youngsters In Pack

Up at Highland View School there is a typical Cub Scout Pack that has more than 20 sons of Y-12ers among its 84 members, with Y-12ers serving as Cubmaster and Assistant Cubmaster. J. T. Maxwell, of the Y-12 Guard Department, is Cubmaster, and C. H. Radford, A Mechanical Operations, is his assistant. Both have young sons in the troop.

The Cub Scouts of Pack 3225 enjoy a well rounded year around program. This year it included a trip to the McGhee Tyson Airport for a look at Air Force planes and a tour of the base. A softball league, field meet and other activities are offered for the entertainment and education of the youngsters.

#### Boys And Dads Listed

In addition to Tommy Maxwell and Kenny Radford, other sons of Y-12ers (with the initials of their parents and their departments in parenthesis) include:

Larry Hill (C. L., General Machine Shop); Bernie Sisk (Marty McMahan, mother, Oak Ridge National Laboratory employee in Y-12 Plant Area), Billy Carden (W. D., Production Analysis), Eddie Tillie (C. E., D Mechanical Operations), Ray Whitley (M. W., General Machine Shop), Bobby Dorr (C. H., B Mechanical Operations), D. R. Dunn, Jr. (D. R., Sr., D Mechanical Operations), Donnie Marlar (C. L., Product Processing), Raymond Smith (C. R., Process Maintenance), Bradley Fincher (J. B., General Machine Shop), Charles Helms (W. S., General Machine Shop), Ben Webster (E. P., D Mechanical Operations), David Beatty (O. C., Guard), Bobby Lynch (Addie Lynch, mother, Special Testing), Tony Gable (T. V., General Machine Shop), Greg Kasey (A. F., Electrical Maintenance), Eugene Beachley (E. W., Process Maintenance), Ray Gregory (G. C., Guard), Richard Gallman (S. L., Production Inspection).

Brewer, A. K. Craft and M. H. Strickland.

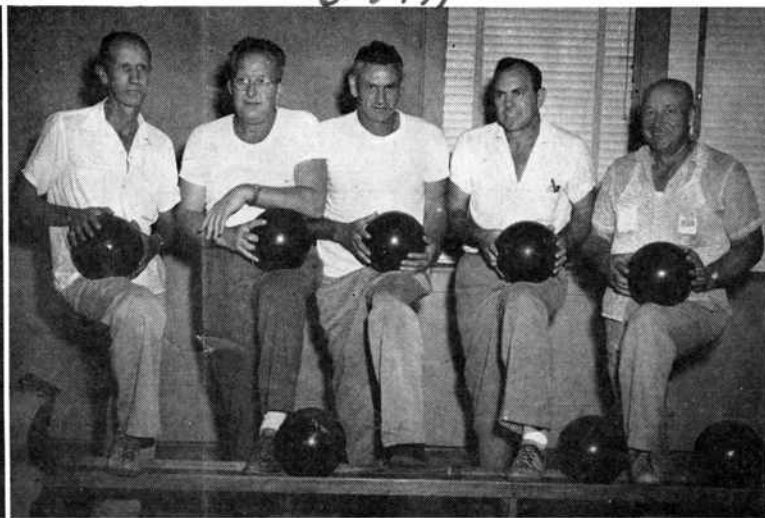

From Process Maintenance comes word that D. V. Richardson is visiting kin folks in Oklahoma, J. E. Boland is vacationing in Ma-

Continued on Page 4

**TWO OF THE TOP TEAMS IN THE CLASSIC LEAGUE** of Y-12 bowlers are shown above. At left are the Rippers, the keglers from left being Capt. Nelson Tibbatts, Jay Holzknicht, Al Groppe, Hubert Trippe and Paddy

Peckman. The right hand picture is of the Rebels, the pin smashers being Jack Spears, Loyal Freeman, Joe Dunlap, Arnold Tiller and Capt. George Riddle. Len Hart, Rippers, was absent when picture was made.

## Rippers Rip Wolves To Swell Loop Lead; Hart And Bowles Post Season High Marks

The Rippers latched a firm grip on to first place in the Classic Bowling League last week with a whitewash win over the Wolves. The Bumpers bumped the Rebels out of second with a three-point win over the Has Beens while the Cubs blanked the Rebels. The Screw Balls snatched a three-point victory from the Tigers while the All Stars whitewashed the Playboys. The Swingsters split with the Wasps in other league play.

## Clippers Still Lead In Mixed League

The Clippers split with the Pin Cats last week to remain in first place in the Mixed Bowling League. The Scrappers moved into second place with a three-point victory over the Units while the Nip and Tucks dropped to third with a three-point loss to the Alley Cats.

Nell McGinnis, of the Clippers, led all women's scoring honors with a 162 scratch single game upped to 215 with handicap, a 432 scratch series upped to 591 with handicap. In the men's bracket J. C. Bryan, of the Clippers, took the scratch single with 185 hiked to 215 with handicap. Herb Oliver, of the Scrappers, took the scratch series with 514 while Tom Hillard, also of the Scrappers, led the handicap series with 609.

The Clippers led the scratch single with 606 and the Pin Cats won the scratch series with 1739. The Scrappers took the handicap single and series with 787 and 2250 respectively.

League standing follows:

Team	W	L
Clippers	18	6
Scrappers	12	12
Nip and Tucks	11	13
Alley Cats	11	13
Pin Cats	19	14
Units	10	14

## Y-12 Anglers Expect Sauger, Trout Runs

Late October or early November, depending on weather conditions, will feature the "runs" of sauger and trout, Y-12 anglers should notice. Sauger already have begun an up-stream movement in mainstream TVA reservoirs, especially at Pickwick Dam, and the run should reach considerable proportions by late October. Good catches or sauger then can be expected up into January.

Rainbow trout will migrate from Watauga Lake up Doe Creek, probably in November, on annual spawning runs. Hatchery fish, placed in Watauga Lake as fingerlings by the State Game and Fish Commission, should make trout fishing better, both in the impoundment and in Doe Creek.

## FAMILIAR DISHES ON SPECIAL LUNCHES

A couple of familiar and favorite dishes will be offered as entrees on the 50-cent Special Lunch at the Y-12 Cafeteria tomorrow, October 24, and next Tuesday, October 29. The main dish tomorrow will be chef's casserole while diced ham and oven baked beans will be served next Tuesday. Each Special Lunch also includes one vegetable, choice of salad or dessert and rolls and butter.

Len Hart, of the Rippers, led individual scoring honors with a 238 scratch single upped to 254 with handicap and a 615 scratch series. Hart's scratch scores were high for the season. Clyde Bowles, of the Cubs, took the individual handicap series with a 698, also high for the season. The Rippers took all team scoring laurels with a 893 scratch single upped to 1003 with handicap and a 2593 scratch series hiked to 2923 with handicap.

League standing follows:

Team	W	L
Rippers	22	6
Bumpers	16	12
Rebels	15	13
Screw Balls	15	13
All Stars	14	14
Swingsters	14	14
Cubs	14	14
Has Beens	13 1/2	14 1/2
Wasps	13	15
Wolves	12	16
Playboys	10 1/2	17 1/2
Tigers	9	19

## Deer Census To Be Taken

The State Game and Fish Commission now is embarked upon a live-trapping and releasing program which, it is hoped, will reveal valuable data on the population of deer on the Central Peninsula Wildlife Management Area.

By the end of October, it is expected that between 50 and 100 deer will have been live-trapped, ear-tagged and released. Information then will be gathered on the number of tagged deer killed and brought out through checking stations during the November-December managed hunting season. Using percentages as guides, the ratio of tagged deer killed to the total number tagged will reveal a total estimate.

Last year, the deer population of Central Peninsula was estimated at 3,700 animals. Total kill on the area during the 1956 season was 1,037 deer.

"CALLING ALL UNSAFE CARS—AND DRIVERS!"

## Sky-Busters Aren't Liked In The Field

To veteran Y-12 waterfowl hunters, nothing is more irritating than to have a "sky-buster" in their midst. The term "sky-busters" is applied to an over-eager, inexperienced gunner who shoots even when the birds are out of range and there is little or no possibility of making a clean kill.

There are two primary evils related to this breach of good gunning etiquette. First, indiscriminate shooting frightens off the ducks and geese before they can come in, thus ruining opportunities for success anyone else might have; and, second, birds fired at from a long range may suffer wounds which later cause them to die in a manner of value to nobody.

Waterfowl admittedly are large in size and misjudgment of distance is often understandable, especially during the excitement of a hunt. The best procedure, of course, is to try out a gun prior to the opening of Tennessee's hunting season on November 7 to determine its maximum effective killing range. Then when on firing location, use a marker to note this maximum range and shoot only at birds within it.

## Men's Fitness Class To Be Reorganized

Plans are under way for reorganization of the physical fitness class for all Union Carbide Nuclear Company men employees in Oak Ridge that proved so popular last year. Any Y-12ers interested in joining the class, which would meet weekly, are asked to communicate with the Y-12 Recreation Department, Room 226, Bldg. 9704-2, plant phone 7751.

There were approximately 30 Carbide employees enrolled in the class last year. Activities include calisthenics, games such as volleyball and basketball and other exercises.

## Alley Cats Claw To Top of C Loop

The Alley Cats clawed their way to the top of the C League of Y-12 keglers last week by blanking the Daffodils for four points. The Felines had a bare one-point margin over Murderer's Row, which bumped B Shift for three. The previously leading Hornets were stung for a three-point loss by the Chillers and fell to third place. The Sunflowers downed the Hi Balls for four.

The climb of the Alley Cats to the top was greatly helped by the scoring of C. B. Smith. He bagged a 221 scratch and 274 handicap single game and a 624 handicap series. R. R. Galford, Sunflowers, posted a 559 scratch series for tops. Murderer's Row posted most of the high team scores with a 797 scratch game, 2341 scratch and 2284 handicap series. The B Shift bowlers had the best handicap game of 1014.

League standing follows:

Team	W	L
Alley Cats	18	6
Murderer's Row	17	7
Hornets	16	8
B Shift	11	12
Chillers	11	13
Sunflowers	9	15
Hi Balls	8	16
Daffodils	6	18

## 'Coon And 'Possum Season Now Open

Y-12ers have been reminded by the State Game and Fish Commission that 'Coon and 'Possum hunting season (with dogs) is now open, as well as the season on minks. The season on these three fur-bearing animals will remain open until January 25.

Raccoons and opossums may be taken only from sunrise to sunset during the open hunting season.

Limits of one per person per night or five per party, at least five being a party, are imposed on raccoon hunting but opossums and mink may be taken by hunting without limit.

Trapping for raccoons will not be permitted this year. Trapping seasons for opossum and mink begin November 15.

## Wildcats And Young To Clash Friday

Following a forced vacation of three weeks from gridiron wars, the Oak Ridge High School footballing Wildcats, No. 1 team in the state, will return to action at 8 o'clock on Friday night of this week at Blankenship Field with the Young High School Yellow Jackets of Knox County as their opponents.

The Wildcats will go all out in this fracas to launch another long winning streak, their former string being broken by Johnson City in a big upset. The Oak Ridgers will be in top shape for the Friday game against the invading Jackets and a capacity throng is expected for the engagement.

# Pistol League Firing Resumes

## New Members Sought For Popular Sport

The 1957-58 Fall-Winter Y-12 Pistol League will open Thursday night, October 31, at the Oak Ridge Sportsmen's Association indoor range. Firing will commence at 6:15 o'clock with the first match being between the Summer League winning Marksmen team and the second-place Masters. The last-place Experts will take on the Sharpshooters for the other battle of the night.

The Marksmen team has been the league champs for the past two seasons and they would like to see some new Y-12ers join the other teams to give them better competition.

## Cost Of Firing Low

The teams will fire the National Gallery Course consisting of 10 shots slow fire in 10 minutes; two five-shot strings of time fire in 20 seconds for each five shots and two five-shot strings of rapid fire in 10 seconds for each five shots. The .22 calibre pistol will be used and they may be borrowed from team members who already have them. The new member must furnish only his ammunition. The cost is minimum as only 30 rounds are used per match.

The members of the teams invite all of their Y-12 friends out to see them fire any night.

## Team Members Listed

The members of the teams are: Marksmen, O. C. Beatty, C. G. Brewster, and T. J. Bush; Sharpshooters, P. H. Williams, M. L. Woodard, and H. Bender; Experts, J. C. Ezell, J. V. Bible, and W. B. Davis; Masters, J. H. Rowan, D. R. Alford, and J. V. Ledbetter.

League schedule follows:

FIRST ROUND	
Thursday, October 31—Marksmen vs. Masters, Sharpshooters vs. Experts.	
Monday, November 4—Sharpshooters vs. Marksmen, Experts vs. Masters.	
Thursday, November 14—Experts vs. Marksmen, Masters vs. Sharpshooters.	
SECOND ROUND	
Thursday, November 21—Marksmen vs. Masters, Sharpshooters vs. Experts.	
Monday, December 2—Sharpshooters vs. Marksmen, Experts vs. Masters.	
Thursday, December 12—Experts vs. Marksmen, Masters vs. Sharpshooters.	
THIRD ROUND	
Thursday, December 20—Marksmen vs. Masters, Sharpshooters vs. Experts.	
Monday, January 6—Sharpshooters vs. Marksmen, Experts vs. Masters.	
Thursday, January 16—Experts vs. Marksmen, Masters vs. Sharpshooters.

con, Ga., Sam Gray went to Georgia to see relatives and also to do some fox hunting. C. F. Huskey plants a trip to Tellico for boar and bear hunting. J. C. Knisley is doing some fishing and resting at home. E. C. Barnes has a fishing date at Cumberland Lake and W. E. Davis is staying at home with his new baby boy.

### MECHANICAL OPERATIONS

Mechanical Operations Division extends sympathy to L. C. Miller, whose father died recently. Get-well wishes go to J. H. Oldham, J. A. March and K. L. Honeycutt, all out with the miseries. R. Mason and D. M. Hensley are vacationing at undisclosed hideaways.

A Mechanical Operations congratulates its latest Proud Pop—J. R. Davis reporting birth of another son, this one being named Marty Harold Davis. W. S. Fox didn't leave a forwarding address for his vacation destination.

The Alloy Shop has C. D. Ward off on jury duty up in Campbell County this week. The Colyum's reporter, Roy E. Monger, is vacationing for a week at home in Knoxville.

That Ol' Debbil Flu Bug lit on J. H. Neeley, Sunflower Shop, on his tour of the premises last week. J. J. Winslett also was on the sick list last week, as was J. L. Billings at his home over at Deer Lodge. Get-well wishes to one and all. Also to R. A. Wilson, reported much improved from his illness and expected to be back at work soon. P. R. Blackwell is vacationing in Florida and E. J. Delaney and C. E. Crowe are likewise gallivanting around but didn't say where.

The Deep South has the vacation lure for O. L. Keene, Production Control. N. J. Roberts selected North Carolina for his'n. M. M. (they call her "Ogreeta") Luallen is enriching her gray matter by attending night school. The outfit is mighty glad to hear from R. V. Harrell that his father is improving after a long illness. Meanwhile get-well wishes are extended H. R. Hill, whose wife is seriously ill. Jane Harvey and Barbara Littleton received a gay welcome to the department, which they joined as newcomers last week.

Vacationers monopolize most of the General Machine Shop news this week. A. T. Sharp took off for to see kin folks in Jacksonville, Fla. Sylvester Smith is cavorting around his home in Carrollton, Ga. Way out in Ft. Worth, Tex., is Janice Gore to visit her sister and her family. Nolan Parrott is hunting birds in Michigan. W. J. Grigsby is taking a week to divide between home in Kingston and a visit to relatives in Chattanooga. A. H. Coling is scouting around Kentucky and Indiana points. Some fishing at Center Hill has attracted O. J. Rhea. E. E. Nell is back from vacationing at Mobile, Ala., and F. N. Yodzukinas from St. Louis, and J. N. Greer is just back. Folks with various ailments to whom get-well wishes are sent are L. R. Johnson, in St. Mary's Hospital, Knoxville, recovering from a back injury; C. M. McAmis, in Baptist

**STILLIFE AND CHILDREN** won top honors in the Y-12 Weekly Photographic Contest for the week ending October 18. The first place picture, top, was taken by C. G. Brewster, Medical, near Rogersville showing that Tennessee greenery will grow anywhere, even on a solid rock mountain. Second place went to Gaines Aldridge, Alpha Four Cascade Operations, with a shot of his son, Stanley, "Going to Work" with Dad.

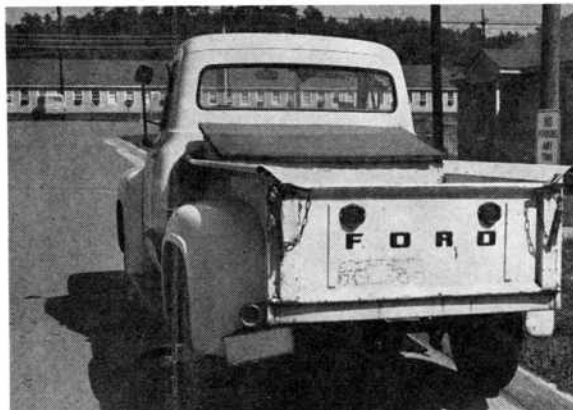

Hospital Knoxville; J. L. Williams, G. D. Butters, F. E. McKeethan, J. B. Fincher, W. L. Scrubbs, Homer Park, J. M. Butts and J. R. Gresham.

### ALLOY

The Proud Pop of the week in Alpha Five Cascade Operations is C. L. Stevens, Jr., whose son, Tommy Lester, was born October 13 at Oak Ridge Hospital. Welcomed back after recent illnesses are P. V. King, B. H. Davis and S. R. Brown. Just back from vacations are B. W. Garrett from Georgia, N. L. Dykes from Kentucky, W. C. Golden from Clinton and W. V. Kanipe from Knoxville. Alpha Fivers will miss the smiling faces of W. L. Harper and V. D. Holt, transferring to the Chemical Division, both of whom are wished lots of luck in their new assignments.

Heck, yes—this is enough for this time. If Sputnik doesn't blow up before this time next week, he'll be right around in the old orbit again.

**CARELESS DRIVING  
IS KID STUFF!**

THE PARKING SIGN AT RIGHT has been being ignored by the driver of the pickup truck in the picture at left. At right, another pickup truck not only is parked on the wrong side of the street but also too near a fire hose connection, left. Such violations, according to the Safety Department, not only create congestion but also potential traffic and fire hazards.

## UCC To Build Ore Plant In Virginia

### Manganese, Chromium Will Be Processed

Union Carbide Corporation has started construction on an ore preparation plant at Warwick, Va., for processing manganese and chromium ores from various parts of the world, it has been announced by Morse G. Dial, President.

The new plant will be operated by Union Carbide Ore Company. This firm is a division of Union Carbide Corporation. It will grade and classify approximately 30,000 tons of ore a month. Unloading facilities will be able to handle full ocean cargoes of ore, at the rate of about 500 tons an hour. The ore will be shipped from Warwick by rail to plants of Electro Metallurgical Company, another division of the Corporation, for use in the production of alloys for the nation's steel mills.

The Warwick property is on Route 168 about a mile northwest of its intersection with Route 17. In addition to ore processing facilities, Union Carbide will build on the site an office building and laboratory. The office building will be a one-story structure of modern design and construction. The processing and auxiliary buildings, which will be remote from residential areas, will be set well back from the road. They will be of modern design and construction and will be equipped with the latest types of materials handling and dust control equipment.

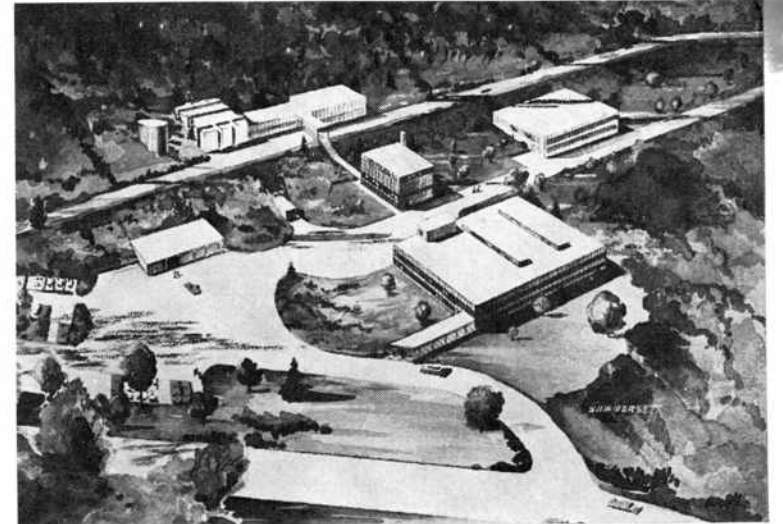

A contract for the engineering work has been signed with Western-Knapp Engineering Company. Ground breaking will take place in the early fall of this year and operations are scheduled to begin on a limited scale in the spring of 1958. There will be approximately 50 employees.

The principal reason for building in this area is the availability of extensive dock facilities nearby at Newport News for handling imported ores and ready access to rail facilities. The Chesapeake and Ohio Railway, which serves the area, has just built there a large bulk material import pier for handling greater tonnages of ore and other commodities.

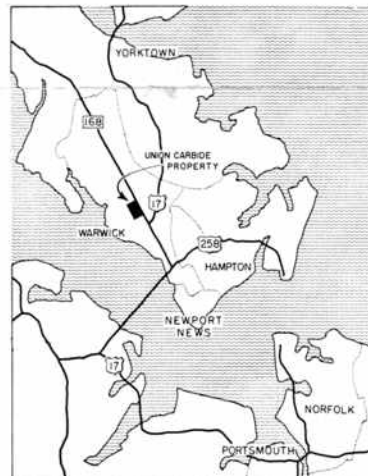

## Season Opens For Symphony And Chorus Of Oak Ridge

Y-12 music lovers will be entertained Friday, October 26, when the Oak Ridge Symphony opens its 14th season at 8:15 p.m. at the Oak Ridge High School. Conductor Anthony Rasis has chosen an all-French program for the first performance of the season.

The Oak Ridge Chorus opens its season with a "pops" concert Saturday night, November 2, at 8:15 p.m. in the Jefferson Junior High Auditorium. Kay Hamrick, wife of Tom P. Hamrick, Special Testing, will be soloing the part of "Bess" in George Gershwin's popular American opera "Porgy and Bess."

UNION CARBIDE ORE COMPANY will have laboratory space for research in this new Union Carbide Corporation research center in the Sterling Forest, N. Y., area, now under construction. An artist's sketch of the center is shown above. It is scheduled to be completed early in 1959.

THIS MAP SHOWS the location of the new Union Carbide Corporation ore processing mill at Warwick, Va.

## Rides Wanted, Offered

Want to join car pool from 100 Oak Lane, Oak Ridge, to Central Portal, straight days. Carol Walker, home phone 5-4418, Oak Ridge, plant phone 7-8291.

Want two riders to any Portal from Powell at Central Ave. and Emory Road, straight days. W. H. Donahue, plant phone 7411, home phone 4-5641, Knoxville.

Wanted two riders from Smithwood, Fair Ave., Inskip, West Haven, Wilson Road to any Portal, straight days. C. E. Keaton, plant phone 7048, home phone 6-5969, Knoxville.

Riders wanted from points on Oak Ridge Highway to East Portal, straight days. C. A. McAlister, plant phone 7304, home phone 3-2855, Knoxville.

Ride wanted or will join car pool from the corner of Pennsylvania and Pasadena, Oak Ridge, to Central Portal, "D" Shift. Bill

## Central Fund Drive Launched In Y-12

Continued from Page 1

\$6,839 and Knox County agencies were allotted \$8,631. This was a total of \$45,285.30 contributed by UCNC employees in Oak Ridge to these agencies—and does not include cash donations made.

### Speedy Drive Is Desired

It is hoped that the campaign in the Y-12 Plant can be concluded within the next few days. Chairman Ellis said last week that the present campaign—in which no quotas are set for any one agency—does not present a competitive situation between UCNC Plants or participating agencies. However, he would like to have the various Y-12 divisions compete against each other in winding up the drive in the Y-12 Plant Area.

The Central Fund Plan is designed to eliminate all other solicitations from Y-12ers in the plant. To each Central Fund Plan contributor is issued a membership card as a receipt so that none of the beneficiary agencies in Anderson, Knox or Roane County will canvass the UCNC contributors.

Garland, plant phone 7248, home phone 5-9832.

Ride wanted from Cumberland Estates, Oak Ridge Highway, to Central or North Portal, straight day. Corum Scott, plant phone 7-8321, home phone 8-0350, Knoxville.

"Well, well. We're quite the rug-cutter this morning, aren't we, Miss Jones?"
